A GUBERNATORIAL RESIDENCE

The communications transmitted yesterday by the Governor to the House, and which we publish in another column, touch on several matters of considerable importance. The principal subject, however, embraced in these documents is that in reference to a Guber natorial residence. The Duke of Newcastle Celebrated Manufacturers in appears to have given this matter a consider ration of no ordinary character, for he actually interests himself in the design of the building. A London architect is required to draw out the plan, instead of a resident in the colony, with a view, no doubt, to inculcate amongst us the taste for a higher order of architecture than our public buildings are said to exhibit. We might object to this part of the programme, on the ground that it dissourages colonial enterprise; but the mere dread of obtaining another specimen of the Indiano-Dutch-Chinese order, as displayed in Cockle's Antibilious Pills;
Alkinson's Infants' Preservative;
Ching's Worm Lozenges;
Keating's Cough Lozenges;
Keating's Cough Lozenges
for Langley Bros.);
Curling's Cod Liver Oil;
Curling's Citrate of Magnesia;
Caird's celebrated Corn and Bunion Plasters; the pagoda wigwam across James Bay, at once reconciles us to the decision of the Duke. We have no doubt, therefore, when the subect comes up before the House, the members will accept with gratitude this thoughtfulness of the Secretary for the Colonies, and adopt, at once, the civilized design of a London " pro tessional." The financial part of the proposition, however, is more likely to meet with opposition from the House. It is not two months since the members refused to vote Governor's salary, on the ground that th colony was unable to afford it; and also with the view to precipitate a union with the neighboring colony. At that time no re liable information had been received of the appointment of a Governor for British Columbia, and it was hoped by the Assembly that its resolutions on the civil list might reach HAVE ALSO RECEIVED the colonial office in London before any appointment was made. That hope of the House is now blasted; for the next steamer will probably bring Governor Seymour to our shores. Two separate staffs of officials will therefore be maintained by the two respective colonies.

We know that the leading men in the Assembly are against committing themselves to any course that might retard the consumption of union and we want therefore. appointment was made. That hope of the

summation of union, and we may, therefor expect on Thursday next, when the debate on this question of Governor's residence will take place, a fierce opposition to the scheme of the Duke of Newcastle. The old ground of the Civil list and the Crown lands will doubtless, again be gone over; the smallness of our revenue will again be paraded; and another resolution will probably be drawn out for the Duke's especial benefit. A great deal of this playing at cross-purposes is, no doubt, the natural result of the neglect with which we have been heretofore treated by the Colonial Office. Amongst other things the Crown land question should have been settled by the Secretary for the Colonies four years ago, and an arrangement made with the Hudson's Bay Company that would have left us at least a piece of land for a Governor's house. It is of course no use bringing up such complaints now, so far as the presen question is concerned, but such apathy shown by the Imperial Government may account for much of that feeling which is occasionally exhibited in the House against the policy or arrangements submitted by the Duke of

Newcastle. We cannot see, however, how the Governor's communication on the question of residence can be otherwise than entertained. The Duke of Newcastle requires, in his dispatch, that the House of Assembly should vote the requisite funds for building a house, and also for furnishing the public apartments-a proceeding that will no doubt cost the colony \$50,000 at least. The Governor, however, leaves to the House the question of a temporary or permanent residence, and is ready to submit a definite proposal on either or both subjects. That His Excellency must have a place in which to reside, is by no means an unnatural request; and that the colony should reasonable enough. If we had a revenue like that of British Columbia, we would not hesitate for a single instant in creeting a building, suitable in every way for the representative of Her Maiesty. But this is just the point; we can will be suitable in the same of the maintenance of lumbia, we would not hesitate for a single Majesty. But this is just the point; we can not afford to go to any such expense. We cannot think of incurring an outlay of \$40,000 and a building of this description. We shall have to run the danger which Dr. Helmcken dreads, of being snubbed by the UNION COPPER MINING COMPANY. Duke of Newcastle, in our application for assistance in this matter. The clause relating to a Governor's residence, in the reso-lutions passed in February, was struck out, ostensibly on the ground of the Duke being likely to refuse the application, but virtually, we believe, as part of a scheme, by leaving the house unbuilt, to increase the chances of union. The hopes as we have already said, entertained by the members then. have been, to a great extent dissipated The Garibaldi Copper Mining Co Union cannot possibly take place for a year or two under any consideration,—in fact in the resolution it is stated to be at the present time "unadvisable if not impossible,"-and in the meantime we shall have to provide Governor Kennedy with a respectable residence. The question, therefore, resolves itself into whether that residence shall be a Horse and Mule Shoes. temperary one, paid out of the colonial revenue, or a permanent one built with the assistance of the Imperial government Under present circumstances we shall have, o course, to accept the temporary scheme, until the intention of the Secretary for the colonies is known on those questions stated and im plied in the resolutions sent home. We shall anxiously await in the meanwhile, the For Sale by the Undersigned, action of the House on Thursday next. WRNTED...A COOK AND GENERAL servant in a small family.

BIRTHS.

On the 2d inst, in this city, the wife of Louis Anthony, of a son.

MARKERED.

On the 4th inst., in this city, by the Rev. J Hall, Mr. George Bond, to Mrs. Catherine Ward

Victoria V. I., 4th April, 1864.

There were also present—Messrs. Downie, Fell, Parsons, McKay and Scott.

His Excellency in reply expressed his satisfaction at the terms of loyalty evinced in the address towards the Throne and thanked the deputation for the kind manner in which allucion had been made to himself personally. He asssured them that in him they would find as warm a friend of religious liberty and equality as any Congregationalist could be. He knew no distinction except between leval and disloyal—honest and dishonest. They might depend upon it that no one sect more than another should be partially treated under his government. In other colonies governed by him he had always found Congregationalists a useful and loyal body. He concluded by remarking that if their wishes were not realized as to his official career, it would not be for want of sincerity of purpose on his part. IMHUMAN CONDUCT .- On Saturday last, be tween 6 and 7 o'clock p.m, a man giving his name as William Mann (most certainly misnamed), while driving down Fort street in a two-horse wagon at a smart trot, accidentally knocked down a foot passenger, who was crossing the road, but instead of getting was crossing the road, but instead of getting out of his wagon to help him up, even attempted to drive on over him; the prostrate man called to him to stop, he did so, cursing the man at the same time for not getting up. He then drove off down the street without ever asking the injured man if he were hurt, although the blood was streaming down his face, and he was hardly able to stand. He was taken into a house near by, and his wounds washed which were fortunately not very severe. would not be for what of sincerny of purpose on his part.

His Excellency made some inquiries about the number of Mr. Macfie's congregation, and then romarked, "I have always advocated that in the colonies there is room enough for the efforts of all religious denominations, and was taken into a house near by, and his wounds washed which were fortunately not very severe. In about an hour and a half he was able to proceed home with the assistance of a friend. Had this happened away from help, the poor fellow would have had a serious time of it, as the brute who caused the injury seemed quite indifferent to the consequences.

Assizes.—The Court of Assizes will be held on Tuesday next. The following cases have been entered on the civil cause list : Insley vs. Wright, Grier vs. Cording, Trabey ve. Upon the latter I subsisted for 17 days. I had nothing to drink, and the only moisture I could get was by sucking the sow off my blankets. My faithful little dog "Roger" could not get at the provisions either, as they were packed away in a box. The sagacious little animal never left my feet at night, and during the day he would run down to the water side to eat mussels, and immediately return to me. He never appeared to sleep at night, but was always on the watch. I think the wolves used occasionally to vocture near, as he would bark furiously and seem much excited. During the daytime we were sometimes visited by crows, which upon too near approach were driven off by "Roger."

The wretch Tit-tas after leaving me proceeded to Balla Balla, where he reported to the Indians that he had killed both of the white men. ADDRESS FROM THE CONGREGA—

ERNOR.

A deputation from the Congregational Church in this city, consisting of the Rev. M. Maefie and the trustees of the church together with several other gentlemen, waited on His Excellency yesterday morning, and presented the following address:

To His Excellency Yesterday morning, and presented the following address:

To His Excellency Arthur Edward Konnedy, Esq., Companion of the most Honorable Order of the Bath, Governor and Commander—in-Chief of Vancouver Island and its dependencies, &c., &c.

May it please your Excellency:

We, the Ministers, members, and adherents of the Congregational Church in this city, ecclesiastical descendants of the English Puritans and the Protector of the Commonwealth, beg in approaching Your Excellency to do ourselves the honor of joining in the general and hearty welcome accorded to you by our fellow citizens of other Felligius denominations on your arrival in this remote but important dependency of Great Brittain, as Representative of our Most Gracious Sovereign.

By the able manner in which your Excellency has exercised administrative functions in the Condition and the high steps with the chief of when I was so perfectly exhausted when taken to the first of the English steps with the chief and five of his proposed to the proposed when the

By the able manner in which your Exce'lency has exercised administrative functions
in other Colonics, and the high esteem with
which your official services were rewarded by
Her Majesty's subjects in the sections of the
empire you governed, we are encouraged to
hope that the period of your residence among
us so auspiciously inaugurated will, under
divine guidance, be associated in our local
hierory with an accession of progrativin every starvation and bodily suffering which I un weather during the 17 days I lay in

The weather during the 17 days I lay in that helpless state was intensely cold and frosty. Both feet and legs were frost-bitten, and for the last three or four days I lay in water, which I believe reduced the inflammation. My legs were so reduced that I could span my thighs with the fingers of one hand. The wound through my thigh was still open when I reached the Major's house, and when water was poured ever it on one side it escaped through the aperture on the other.

The bail still remains in my right thigh though I can manage to walk. On the passage to Victoria I have extracted soveral

though I can manage to walk. On the pas-sage to Victoria I have extracted soveral, shot from my person, I am happy to think, however, that no bones have been injured,

however, that no bones have been injured, and hope soon to recover my strength. Johnson was killed instantaneously, the ball passing right through his breast. He was an unmarried man.

Kendal, who so nobly came to my rescue, is an Englishman, hailing from Yorkshire.

Mr. Walker gives it as his conviction that had the gunboat Grappler taken the Indians who committed previous murders, on the occasion of the visit of the gunboat to that locality, this unfortunate aftair would never have happened. The chiefs themselves adhave happened. The chiefs themselves admit this. The fact of their shooting the murderer, Tit-tas, proves their abhorence of such deeds being committed by the bad characters in their tribes.

CHINESE ADDRESS TO THE GOVERNOR.

Yesterday at 12 o'clock a number of the leading Chinese merchants of the city, accompanied by Messrs. Hall and Wilby. waited on His Excellency and in the name of their countrymen in Vancouver Island and British Columbia, presented the following In the reign of Tong Chee, 3rd year 2nd

Sir,—I am directed by the Duke of Newessite
to acknowledge the receipt of your letter of the
27th ultimo, on the subject of a Private Secretary.

to acknowledge the receipt of your letter of the 27th ultimo, on the subject of a Private Secretary. His Grace desires me to say that he is clearly of opinion that you ought to have a Private Secretary, for whom two hundred and fifty pounds would be a very proper provision. No such provision, however, has been made by the Local Legislature, or proposed to them as part of the arrangement by which they are to obtain possession of the Land Pund. His Grace is, therefore, unable tog-arrantee the salary of a Private Secretary. But in handing over to the Legislature the Crown Revenue of the Island, you will be at liberty to urge upon them the propriety of making this provision on the Oiyil Liet, and in case it shall be made, or on the chance of their making it, to select for yourself a Private Secretary. More that this, the Duke of Newcastle regrets that he is unable to do under present circumstances.

I am, &c.,

SUMMARY COURT.

BEFORE CAMERON C. J.

A number of summary suits for debt were disposed of by His Honor. The following were the only cases of any public interest which came before the court :

Cross-examination of Mr. Green contin-ied.—Mossrs. Coo & Martin have deposited is per cont of the estimated cost of the worke in the bank.

Mr. Cranford re-examined by Mr. Wood.
They had made an estimate of the cost of the

works during the ensuing year, which was n round numbers \$50,000. An estimate had been made for an additional engine and pipes. \$22,000 had been already expended by Coe & Martin of their own means and credit.

S22,000 had been already expended by Coe & Martin of their own means and credit. The company proposed to establish a joint-stock company to carry out the scheme.

Mr. McCreight objected to the assets and liabilities of Coe & Martin being gone into.

The Chairman said suppose the committee see fit to grant an exclusive privilege of ten years to Coe & Martin in order to protect the interests of the public?

Mr. McCreight said he would be very much afraid that the object of the committee would be to place Coe & Martin in such a position that they could not carry out the scheme, and so would be obliged to give it up. He would continue to recommend Cee & Martin to throw up the demand for exclusive privilege, as he feared the only object of granting it by the committee would be to throw out the bill. His sole object now was to protect Coe & Martin's property; it is not clear at present whether Coe & Martin are not trespassers in laying or repairing their pipes, and it was for the committee to say whether they would protect Coe & Martin or not. He (Mr. McCreight) would press his objection.

The Chairman said they had already allowed Cusual a very great deal of latitude decreases the committee of the committee of the committee of say whether they would protect Coe & Martin in such a position of Mr. Walker, the manager of the Bank of British Columbia, who said that Mr. Franklin was a member of the Legislature?

The Chairman said they had already allowed Councel a very great deal of latitude, and he did not think they could admit this objection. The committee, however, would deliberate on the point.—The room was accordingly cleared and on the doors being reconcered. The Chairman said the committee were

The Chairman said the committee were of opinion that all possible information in the matter should be laid before the public.

Mr. Cranford, in answer to Mr. Wood, said he had no doubt that is their bill were passed persons could be found who would furnish plenty of funds to carry out the works. He did not know that an Artesian well was proposed to be made; did not know that an Ar-

tesian well was impossible; believed the contrary; he knew that Liverpool had been supplied for a long time by wells—a city of 300,000 or 400 000 inhabitants, and they were supplied for a long time from seven vells. An Artesian well was not deemed necessary here because an abundant supply of water had been found.

Mr. Wood addressed the committee, stating that Messrs. Coo & Martin had traded in the most unfair manner on their having given up their demand for monopoly; with this demand, however, the petitioners had nothing to do; it rested with the committee, however, to say whether a proper company, properly

to say whether a proper company, properly constituted and with proper guarantees as to means, should not be allowed such a mopoly as would enable them to carry out their scheme profitably and with advantage to

nopoly as would enable them to carry out their scheme profitably and with advantage to the community.

Mr. McCreight objected to the learned Counsel now advocating a monopoly when his clients had withdrawn their demand.

Mr. Wood continued, saying that Messrs. Coe & Martin were simply the stalking horses of a company that was to be, and who if designed to traffic on the permission of the columittee in supplying the city with water. Mr. Tiedeman comes forward simply in order to to ask the committee that he may be protected in the expenses he has undergone in surveying Elk Lake. Coe & Martin proposed I simply to supply the city of Victoria with water from Spring Ridge, which they admitted was simply a basin, and in order to cover this doubtful source of supply, have inserted the word "elsewhere" in their pre- amble. They have not specified any other particular source, and beyond doubt they inserted the word "elsewhere" in their preamble. They have not specified any other particular source, and beyond doubt they intend to rely simply on Spring Ridge. He would say that there was never an instance of a town being supplied with water from intermittent springs, where a reliable source was to be had. Meszis. Coe & Martin proposed to construct reservoirs to supply the city in dry weather, but they had only calculated for a sixty days' supply, when it was calculated by engineers that a six months' supply should be provided in cases where the supply of a community depended on springs. The learned coursel urged the great necessity for a large supply of water for fires, flushing sowers and many other purposes, and which he maintained could not be had from Spring Ridge. Besides this basin was so near the town, exposed to contamination from filtering through all kinds of filth, that it was simply a question as to whether the city should be appropriate from such a source of from a green a gre town, exposed to continuation from the continuation of the continuation of the continuation of the continuation as to whether the city should be supplied from such a source or from a great natural reservoir such as Elk Lake. The learned counsel argued that Coe & Martin were totally incapable of carrying out the scheme themselves; they could only sell out to this mythical company, whom the committee knew nothing about. These gentlemen had already taken an unfair advantage of the committee in laying their pipes and by publishing letters, trying to influence public sontiment. Measrs. Coe & Martin were unsub. Stantial men, who did not intend to carry out this scheme; they could not do it, for they had not capital. He would call on Mr. Tiedeman to show that Spring Ridge afforded a totally inadequate supply for a large city.

After considerable argument the court gave judgment to defendant.

The case was of some importance as between contractors and road men.

Dennes for plaintift, Drake for defendant.

FROM BENTINCK ARM.

The schooner Amelia, Capt. Morrisoo, having on board Major Robertson, Capt. Cator, Mr. Ernest Walker, and several other passengers and a cargo of furs and skins valued at over \$5000, arrived yesterday from Bentinck Arm.

The Amelia was 16 days on the passage, and encountered severe S E gales while crossing Queen Charlotto Sound. She called at Fort Rupert on her way down the crash.

There is nothing of much general interest to report from the Arm. The season had been en the whole mild. The trail was open, and Mr. Walker's pack train would shortly leave for Cariboo.

Copper, plumbage and other minerals have been discovered in the neighborhood, and on the Bella Coolla river prospects of 5 cents of fine gold to the pan have been obtained. The country will be better explored this season.

Peace River.

Pearse, the miner, who has been prospecting for two years on Peace river returned in the fall to Bella Coolla, bringing with him about \$2,000, which was all he had realised. GOD SAVE THE QUEEN!

NOTICE

WE, WITH GREAT CONFIDENCE, effer the Buckeye Machine for this reason: Knowing it to be superior to any Mower for sale, and that it will sustain the reputation it has made for the past three years in surpassing any other Mower in the following respects: Mower in the following respects:

Being better Made; much Stronger and more Durable; will Run Lighter; Cut much closer with greater ease to the team, and no side draught.

We can bring twenty Farmers to say the BUCK-EYE is SUPERIOR to any Mower, to one who can be found prejudiced against it.

The Buckeye Mowers are of two sizes, cutting 4 foct, and 4 feet 8 inches.

Attorney General's Office, 5th February, 1864.

The important advantages which belong to the BUCKEYE as a mower are retained in the Reaper, and can be used either as a Mower or Reaper by attaching the Platform and Reel.

Thaugh importing largely of them, we have been unable, for two years, to supply the demand.

They are better adapted to the wants of California Farmers than any Combined Machine for sale. It will adapt itself to every surface of ground, will run lighter and deliver its grain easier and better than any other Reaper. The Reaper's seat is directly over the axle of the Machine, insisted of being on the Platform, where it adds greatly to the draught. THE ACTING REGISTRAR B. OF JOINT.

ALL CURES MADE EASY !!

Piles, Fistulas and Internal Inflammation Piles, Pistulas and Internal Inflammation. These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's bintnent, and closely attend to the printed instructions. It should be well rubbed upon the neighboring parts, when all obnoxious matter will be removed. A poulties of bread and water may sometimes be applied at Led time with advantage: the most scrupilous cleanliness must be observed. If those who read this the observed. If those who read this the observed. If those who read this preder a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout and Neuralgia. Nothing has the power of reducing inflammatic and subduing pain in these complaints in the sam degree as Holloway's cooling Ointment and purify ing Pills. When used simultaneously they driv all inflammation and depravities from the system subdue and remove all enlargement of the joint and leave the sinews and muscles lax and uncon tracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persecred in.

other Skin Diseases.

After fomentation with warm water, the utmost relief and specifiest cure can be readily obtained in all complaints aftecting the skin as d joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the property of the blood which will be effected by a judicious use of the Pills. The general health will readily be improved, although the emption may judicious use of the Pills.
